

Art, Design & Architecture Collection

A comprehensive survey of current publications in the visual and applied arts

Art, Design & Architecture Collection includes the specialist indexes ARTbibliographies Modern (covering modern and contemporary art), Design and Applied Arts Index (for all aspects of design and crafts) and the International Bibliography of Art (covering scholarship on Western art history), together with a complementary collection of current full-text journals, Arts & Humanities Database.

- **ARTbibliographies Modern** is the only specialist bibliography available for the study of modern and contemporary art from the late-19th century onwards. ARTbibliographies Modern provides deeper coverage of publications on modern artists and movements than any other index.
- **Arts & Humanities Database** features hundreds of full-text titles designed to complement a range of ProQuest indexes covering art, architecture, design, history, philosophy, music, literature, theatre, and cultural studies.
- **International Bibliography of Art** is recognized as the world's most comprehensive bibliography of scholarly writing about the history of western art. International Bibliography of Art consists of bibliographic citations, abstracts, and subject indexing drawn from the Getty's thesaurus and authority files.
- **Design & Applied Arts Index** is an international abstracting and indexing tool for research in the humanities. Design & Applied Arts Index provides researchers with abstracts and bibliographic records for articles, news items, and reviews published in design and applied arts periodicals from 1973 onwards.

Subjects Include:

- Art history
- Architecture and architectural history
- Crafts, ceramics, glass, and jewelry
- Decorative art and antiques
- Fashion, textiles, and dress
- Furniture and interior design
- Industrial design
- Modern and contemporary art
- Museums and conservation
- Photography

Why the Art, Design & Architecture Collection?

- Consolidated searching brings researchers the depth of information they seek.
- The bundled approach saves time and energy for the librarian who can manage one digital resource instead of four or five since there are fewer renewals to manage and more research value for the dollar.
- Harnessing these resources means researchers can conduct comprehensive art literature reviews, access complementary full text and cross search this specialist art content efficiently.
