

Nursing & Allied Health Collection

Supporting Students on Their Path to Academic and Clinical Success

Whether supporting a clinical research study or providing faculty with instructional multimedia content to help students connect theory to practice, Nursing & Allied Health Collection provides a diverse mix of scholarly literature, clinical training videos, reference materials, and evidence-based resources — including dissertations and systematic reviews.

Developed in collaboration with an advisory board of faculty, researchers, and librarians, Nursing & Allied Health Collection delivers a blend of practical and theoretical content in an intuitive interface designed to help students build the research and clinical skills they need to succeed in their courses and future healthcare careers.

Key Benefits

- **A User Experience Designed for Nursing & Allied Health Studies:** Intuitively guides users to the content they need for common healthcare assignments — including peer-reviewed journal articles, clinical skills videos, case studies, and multicultural reports.
- **Prepares Students for Success:** Helps nursing and allied health students develop essential research skills for both their academic journey and future careers.
- **Meets Today's Challenges:** A user-friendly interface allows novice researchers to navigate with ease, reducing the need for extensive training and support. Additionally, clinical skills videos provide best-practice techniques when clinical time is at a premium.

Content Highlights

- **Peer-Reviewed Journals:** Access to 1300 full-text peer-reviewed journals covering the latest research and key developments in nursing and allied health.
- **Nursing Skills Videos:** A continually updated collection of 350+ full-length clinical skills videos demonstrating best-practice techniques, reviewed and updated by licensed nursing and allied health experts.
- **Grey Literature:** Support advanced research with a robust collection of dissertations, case studies, government and NGO-produced materials, and other non-traditional resources not typically indexed in nursing bibliographic databases.
- **Multicultural Reports:** CultureGrams World and Province Edition reports provide essential cultural insights from 200 countries, helping students develop a deeper understanding of diverse patient populations.
