

# O'Reilly for Public Libraries

Essential technology and business resources for your users

O'Reilly for Public Libraries connects your users to in-demand technology and business resources in a modern digital learning ecosystem. More than 47,000 books, over 30,000 hours of video, and resources such as case studies and expert playlists make O'Reilly a must-have tool for libraries striving to prepare today's users for the future.

O'Reilly supports users at all levels with multiple learning styles through rich and varied formats, responsive design, and an intuitive interface that works on any screen size. Everyone from students to job seekers will value having access to resources that help them with personal and professional growth, guides and test prep for popular technology certifications, and tools to help them learn today's most in-demand technologies. There's content for young adults who are just exploring programming and for people who are trying to figure out how to use their new Apple Watch or iPhone. And entrepreneurs will find tools to help them start a business, create a business plan, or define a strategy.

For more than 40 years, O'Reilly has inspired users to build skills, find answers, and change the world. It's part of why the O'Reilly platform has been named the "go-to database" for technology by Library Journal and rated 4.33 out of 5 by The Charleston Advisor.
