

Politics Collection

One search access to records in political science, public policy, and international relations.

THE POLITICS COLLECTION makes serious political science research easy to do. For librarians, it is a cost-effective way to provide the leading indexes required for serious research in political science and public policy together with high-quality full-text content from important publishers such as Palgrave Macmillan, Springer Nature, Cambridge University Press, and Emerald Group Publishing. It ensures comprehensive coverage from a huge range of relevant sources to fully support the study of political science, policy, and international relations.

The collection includes:

- **Worldwide Political Science Abstracts:** citations, abstracts, and indexing of the international serials literature in political science and its complementary fields.
- **Full-text journals, dissertations, and other content** covering political science, international relations, public policy, and related fields.
- **PAIS Index:** public policy resource offering coverage of a wide range of international sources. PAIS is originally an acronym for Public Affairs Information Service.
- **Policy File Index:** indexes and links to reports published by think tanks, research institutes, NGOs, advocacy groups and other organizations researching public policy issues.

Subject areas include:

- Comparative politics
- Electoral systems
- Environmental and energy policy
- Government
- International relations
- Political behavior
- Political economy
- Political science
- Public policy

Why Politics Collection?

- **The easy way to conduct political science research:** One place to search and find a wealth of relevant records in political science without being overwhelmed by content in unrelated disciplines.
- **Diverse content:** In addition to full-text journal articles, users can access popular publications such as Current History, Foreign Affairs, and New Statesman as well as reports with impactful analysis, and in-depth scholarly material found in dissertations. These offer an international perspective from leading and emerging academics, policymakers, and think tanks.
- **Easy access to research from the world's top think tanks:** Policy File Index indexes and links to the output of hundreds of think tanks and other organizations researching policy all in one search.
- **Significant content from top publishers:** Provides the leading indexes required for research in political science and public policy together with high-quality full-text content from important publishers such as Palgrave Macmillan, Springer Nature, Cambridge University Press, and Emerald Group Publishing.
- **Deep backfile of historic indexing coverage:** Offers an historic bibliography back to 1915 (PAIS Index), enabling researchers to trace political themes, topics, policies, and developments over most of the 20th century.
