## Colonial State Papers

This digital archive features over 7,000 manuscripts and 40,000 bibliographic records, covering British colonial expansion from the 16th to 18th centuries. Created in collaboration with The National Archives of the United Kingdom, it documents Britain's colonial relationships, especially with the Americas and the Caribbean. It provides scholars with vital primary resources for research on British trade, history, and global expansion during this period.

## Trench Journals

Trench Journals features over 1,500 rare periodicals published during World War I by military and support units. It provides a unique and intimate view of the war through personal stories, artwork, and firsthand accounts from soldiers, medical staff, prisoners of war, and civilians. This collection offers valuable primary source material for understanding the diverse experiences of those involved in the conflict.

## Queen Victoria's Journals

These personal journals offer detailed accounts of both household and state matters, serving as a critical primary source for the study of 19th-century British political and social history. This archive includes high-resolution reproductions of every page, along with photographs of illustrations and inserts within the journals. Scholars gain access to a firsthand perspective on the Queen's personal life and her interactions with prominent political figures.
