Ebook Central™

Millions of Ebooks. One Platform.

Ebook Central is an all-in-one ebook platform for research, discovery, selection, acquisition and administration for libraries.

It brings content from an unparalleled selection of publishers into one unified experience giving students, faculty and researchers seamless and immediate access to the ebooks they need.

And librarians also benefit from LibCentral, the administrative module where they can manage their entire Ebook Central acquisition program and produce reports to help understand what's working and what isn't — and make on-the-fly changes to accommodate budget as well as student and faculty needs.

User-Centered Experience

Designed with accessibility in mind, Ebook Central offers a seamless user experience. With over 410,000 DRM-free ebooks enabling unrestricted downloading, printing, and sharing, it's built to empower every user effortlessly.

As of January 2025. Territory restrictions may apply.

Dynamic Ebook Program Management

No matter your library's size, budget, or collection goals, Ebook Central gives you the freedom to mix and match acquisition models - ensuring you get exactly what you need without paying for what you don't.
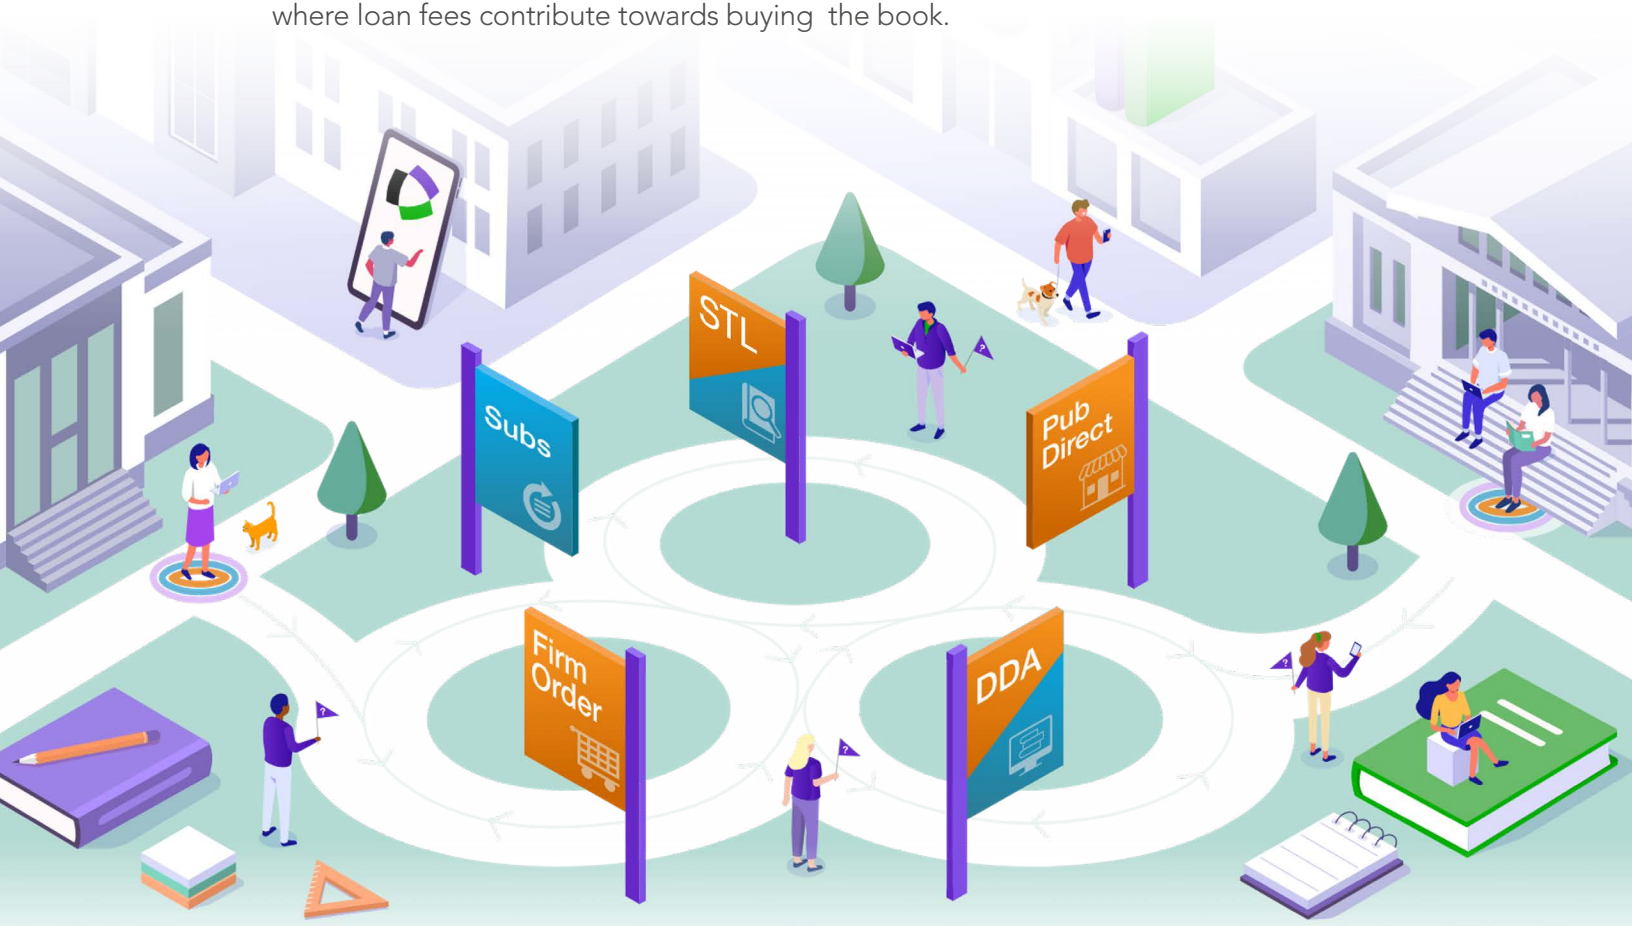

Build your ideal strategy with options tailored to your unique requirements:

- **Firm Order** - Purchase outright from over 2.4 million ebooks with flexible access levels, including 1-User, 3-User, Non-Linear (NL), and Unlimited Access (UA).

- **Subscription** - Access multidisciplinary ebook collections at an affordable price to support curricula, graduation trends, and emerging courses.

- **Demand-Driven Acquisition (DDA)** - Let data guide your decisions. Choose from:

    - **Traditional DDA** - Titles are only triggered for purchase or loan if used, and librarians have complete control.

    - **Short-Term Loans (STL)** - Libraries can choose to take an affordable loan without commitment to purchase.

    - **Access-to-Own (ATO)** - A mix of traditional DDA and STL where loan fees contribute towards buying the book.

Collection development doesn't have to be time-consuming. Our team of Content and Workflow Strategy Consultants (CWSCs) have deep knowledge of collection development best practices and expertise in acquisitions workflows. We can help you automate as much of the practice as desired - from title notifications to automated approvals and DDA.

"*I help librarians craft and maintain profiles to build their collection and make sure their patrons have access to the content they need for classes and research.*" - **Diana Snyder**, Content and Workflow Strategy Consultant

Title Matching Fast (TMF)

ProQuest's free Title Matching Fast (TMF) service delivers custom insights to help libraries improve collections by matching their library holdings to electronic titles without the hassle of spending hours searching.
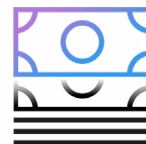

"*The new editions TMF report is a great way to scoop up newer editions that we've missed and allows us to find holes or gaps in the collection. It's essential for any library dealing with librarian shortages.*"

- Sara Duff, University of Central Florida

Here are some of the innovative ways libraries like yours use TMF to their advantage:

- Identify new title editions

- Match print-to-print titles

- Expand access to course materials on reading lists

- Reclaim space, get help with weeding projects

- Develop collections on particular subject(s), LC class, award-winners, specific languages and more

- Increase shelf appeal by replacing worn out books

Unparalleled Choice in Content

Ensure your ebook collection is always timely and relevant with expert curation based on the latest data and trends from a universe of award-winning, cross-disciplinary content from renowned publishers

Curated Collections and Curated Topics

Curated Topics and Curated Collections are librarian-selected lists of ebooks and print titles designed to simplify the content-selection process, give librarians their time back, and ensure access to the newest content on the most important research topics.

Selectors can browse **over 280 niche sets** of titles and purchase using a combination of classic and innovative acquisition models, including Perpetual Access, Demand-Driven Acquisition (DDA), Short-Term Loan (STL), Access-to-Own (ATO) through their preferred acquisition platform: LibCentral, OASIS or Rialto.

MEET LIBLISTS

LibLists, short for Library Lists, is a ProQuest Books initiative designed to highlight the expert collection development skills of academic librarians.

These librarian-curated ebook lists reflect both deep expertise and a passion for supporting emerging research trends. Browse LibLists under the Curated Topics section.
